1124 S. IH 35 | CAPITOL STATION – P. O. DRAWER 12967 | AUSTIN, TEXAS 78711

The Honorable William P. Clements
Governor of Texas
Capitol Station
Austin, Texas 78711

Dear Governor Clements:

The Texas Legislature has charged the Railroad Commission with the responsibility for regulating gas utility companies in Texas. The Commission has original jurisdiction over rates, operations, and service of natural gas sales in unincorporated areas, in addition to de novo appellate review of municipal action.

The Gas Utilities Division carries out the actual regulation activities in behalf of the Commission. Within this Annual Report for Fiscal 1981, the Gas Utilities Division presents information required by law, plus pertinent 1980 data from the many gas utilities in Texas.

The Gas Utilities Division operated on a budget of $1,726,512 in 1981. During the fiscal year the Division's staff averaged 59 employees. To best fulfill its responsibilities, the Division is organized into 5 activities: Auditing, Safety and Engineering, Reports and Statistics, Hearings and Legal Analysis, and Program Management.

The Auditing Section is charged with auditing over 250 annual gas utility reports and other filings required by Commission orders. To verify use of a uniform system of accounts, the staff (with personnel in 5 Texas cities) goes into the field to examine the books in gas utility company offices. Auditing is also authorized to collect a tax of 1/4 of 1% of a utility's gross revenues. Carrying out these mandates in fiscal year 1981, Auditing conducted 132 audits and collected $28,258,266 in gross receipt taxes.

An Equal Opportunity Employer

The goals of the Safety and Engineering Section are to preserve human life and to prevent the destruction of property and natural resources. With personnel in 7 Texas cities, the Section enforces the minimum safety standards adopted by the Commission for the safe transportation and delivery of natural gas by intrastate pipelines. In the 1981 fiscal year the safety staff performed 721 safety evaluations, 199 accident leak investigations, and 34 special investigations for Texas cities.

The Reports and Statistics Section gathers data from the gas utilities subject to Commission regulation and produces studies and reports supporting Commission programs. The Section keeps a computer record of all dockets filed, has on file approximately 2,000 current gas utility tariffs, and monitors compliance with docket orders and tariff matters. The staff responded to 1,246 complaints and inquiries from the general public in 1981.

The Hearings and Legal Analysis Section holds hearings to gather evidence concerning gas utility applications, analyzes the evidence, and recommends disposition to the Commission. The Division issued 261 notices of hearing in fiscal 1981, and of the 477 applications filed requiring economic analysis and research, 47% requested rate increases. The Section also provides legal analyses of Safety and Auditing programs.

Program Management plans, organizes, coordinates and controls the operation of the other Sections. It is also responsible for fiscal matters, rulemaking proceedings, statutory notices, and communication between the Division and other parts of the Commission.

In accordance with TEX. REV. CIV. STAT. ANN. art. 6061, (Vernon 1980), we hereby transmit the Annual Report of the Gas Utilities Division of the Railroad Commission of Texas for Fiscal 1980.

Respectfully submitted,

James E. (Jim) Nugent, Chairman

Mack Wallace, Commissioner

Buddy Temple, Commissioner

Jeffry R. Hill, Director

EXECUTIVE SUMMARY

Approximately one thousand thirty-five Texas cities receive gas utility service from 52 investor-owned and 78 municipal distribution systems.

In 1980 four categories of customers purchased gas in the following proportions:

2.9 million residential customers	30.0%
263,000 small commercial and industrial users	40.0%
965 large industrial customers	21.5%
7,710 miscellaneous others	8.5%
Total	100.0%

The average price to residential customers increased from $2.91 per Mcf in 1979 to $3.33 in 1980, or 14%, while the average annual consumption rate for the same customers decreased from 86.2 Mcf to 76.7 Mcf, or 11%.

Eight distribution systems (6 private and 2 municipal) service approximately 95% of all residential customers. Entex and Lone Star are by far the largest. The average residential price charged by these systems varied from $2.53 per Mcf (Pioneer) to $4.08 per Mcf (Corpus Christi Municipal).

Texas' 25 largest cities serve 1.7 million residential customers, 59% of the total. Average 1980 residential gas prices ranged from a low of 94¢ per Mcf in Amarillo to $4.92 per Mcf in Laredo. In calendar 1980, eleven of the 25 largest cities had base rate increases. All of these increases were granted by the respective city councils; the Railroad Commission heard no appeals and granted no increases for Texas' 25 largest cites.

In addition, at least 265 smaller Texas cities increased gas utility rates within their jurisdictions.

In fiscal 1981 the Railroad Commission concluded appeals (granted, granted in part, denied or dismissed) from 17 cities. This compares with prior years as follows:

Fiscal Year	City Appeals
1976	22
1977	57
1978	95
1979	55
1980	43
1981	17

Of these 17 appeals concluded all were dismissed.

Nine cities filed burner tip appeals during fiscal 1981, as compared to 53 during fiscal 1980.

Texas investor-owned utilities were unable to account for 2.74% of gas purchased for resale in 1980, while municipal systems had a lost and unaccounted for average of 5.4%. These overall percentages lost are in acceptable ranges, but the loss is very uneven from system to system and company to company. Seven large investor-owned utilities operate a total of 876 local distribution systems. One quarter of these systems had lost and unaccounted for percentages of 10% or greater in 1980. The following shows these companies' percentages:

Company	Distribution Systems	System with 10% Unacc'd For	Total % Unacc'd For
Arkansas Louisiana Gas	51	15	8.30%
Brazos River Gas	16	10	10.70%
Energas	72	2	3.30%
Entex	271	37	2.70%
Lone Star Gas	417	147	2.10%
Rio Grande Valley Gas	27	3	.24%
Southern Union Gas	22	6	4.70%
Total	876	220	2.62%

The 1980 losses of the municipal systems were much greater. Of the 78 reporting systems:

47 had lost and unaccounted gas of 10% or greater.
28 had lost and unaccounted gas of 20% or greater.
16 had lost and unaccounted gas of 30% or greater.
6 had lost and unaccounted gas of 40% or greater.

One of every five municipal systems could not account for at least 30% of its purchased gas. The systems with unusually high losses are almost exclusively small-town systems. No major metropolitan area had losses over 10% and most are well under 5%.

GAS UTILITIES DIVISION OPERATIONS, FISCAL YEAR 1981

In fiscal 1981 the Gas Utilities Division spent approximately $1.7 million: 30% in Hearings and Legal Analysis, 44% in Safety and Engineering, and the rest divided among Program Management, Auditing, and Reports and Statistics.

The Division averaged 59 employees during the year. Collections of Gross Receipts Taxes totaled more than $28 million.

During 1981, 477 cases were filed and assigned to dockets. Most of these were environs and jurisdiction cases. 413 cases were completed, leaving 156 cases pending. The average lapsed time per completed case was 124 days, a decline of 22.5% from 1980. Notices were issued for 261 hearings.

Major proceedings of the Hearings and Legal Section included: responding to enacted legislation regarding large volume utility rates; drafting a manual to aid municipalities in examining rate applications; expanding the enforcement of certain substantive rules in environs applications; and supporting the increased enforcement of the Safety and Engineering Section. Numerous jurisdiction determinations were placed in abeyance pending final resolution of proposed legislation amending the Cox Act definition of gas utilities.

Safety and Engineering performed 721 safety evaluations in addition to 199 accident leak investigations. Special assistance was provided to 34 Texas cities in an ongoing program to help correct hazardous conditions on old and impaired distribution systems.

Considerable staff time was expended in discovery and continued monitoring of unsafe gas concentrations in the towns of Mont Belview and Daisetta.

In anticipation of future problems with hazardous distribution systems, as well as increased responsibilities under the federal "Pipline Safety Act of 1979", the Commission increased the 1981 Safety and Engineering budget by 63% over 1980. Also, federal funds of $161,000 were granted to support part of the safety program.

The Auditing staff conducted 132 audits of company records in company offices, and Reports and Statistics responded to over 1200 consumer inquiries and complaints, in addition to maintaining some 2,000 current tariffs.

Weighted average 10 Mcf bill for each residential customer in the 25 above cities:
January, 1977 - $23.79; January, 1978 - $24.92; January, 1979 - $28.09; January, 1980 - $30.70;
January, 1981 - $36.57.

Median City, 10 Mcf bill -- January, 1981 - El Paso ($34.62).

ALG - Arkansas Louisiana Gas Company; ETX - Entex; MUN - Municipally Owned; LSG - Lone Star;
PNG - Pioneer; SUG -Southern Union; RGV - Rio Grande Valley.

These 25 cities have 1,628,549 residential customers, about 56% of the state total.

Fourteen cities had no increase in base rates in 1980 - Abilene, Austin, Beaumont, Brownsville, Corpus Christi, Dallas, Laredo, Lubbock, McAllen, Midland, Odessa, Texarkana, Tyler and Waco.

Eleven rate increases were approved by the city councils - Amarillo, Bryan, El Paso, Fort Worth, Galveston, Houston, San Angelo, San Antonio, Sherman, Temple and Wichita Falls.

Waco	2,058	2,667	2,291	+29.6	+11.3
Wichita Falls	2,853	3,410	3,125	+19.5	+ 9.5
Mean	2,048	2,430	2,284	+18.7	+11.5

*Degree days measure the deviation from normal temperature by accumulating the difference between 65°F and the daily mean temperature. A mean temperature of 60° for one day would be a five degree day deficiency. A greater degree day deficiency then normal indicates colder weather. Less degree day deficiency than normal indicates warmer weather. These figures are on a calendar year basis. Colder periods in each heating season may fall either before or after year end.

* Some domestic customers use gas for heating work shops and farm type enclosures, creating abnormal Mcf per customer consumed

** Some domestic customers have corn dryers, creating abnormal Mcf per customer consumed

Note: San Antonio is both a municipally owned system and a gas utility. It is included in tables applicable only to municipally owned systems.
